

## *Christmas Holiday Update*

Dear Residents/Families/Friends,

With Christmas and New Year's Eve around the corner, we would like to send you and your loved ones the warmest of holiday wishes. We know how difficult it is to celebrate this time of year without the same traditions we have all grown accustomed to, but with the COVID-19 vaccine becoming a reality in the very near future, we are more hopeful than ever that 2021 will bring happier and safer times for everyone.

As always, we are extremely grateful that you have entrusted your loved ones to our care and we are making every effort to provide our residents with wonderful holidays. A traditional dinner will be served as well as plenty of festive goodies, we will also have staff on hand, Christmas Caroling, and spreading lots of Holiday Love and Cheer!

Window visitation for the holidays can be scheduled with the facility receptionist for Christmas Eve day.

College Park Rehab has been one of the first Clark County facilities to receive the COVID 19 vaccine., facilitated by Walgreens Pharmacy. We are pleased to report the majority of our staff and residents have been vaccinated, with a second round being administered January 5<sup>th</sup> 2021 for residents, and January 11<sup>th</sup> for staff. As a reminder, our cumulative number of cases to date are as follows: 44 residents and 33 staff members have tested positive for COVID-19. We have no new cases to report. Our regular weekly updates will resume next week and we will continue to update you on our website if we receive notifications of new confirmed cases of COVID-19. As always, if you have any questions or concerns please don't hesitate to contact us directly.

On behalf of the entire staff at College Park Rehabilitation Center, I wish you a happy, safe, and joyous holiday!

Sincerely,

*Julie Liebo*
