

WEEKLY UPDATE

06/16/2020

Dear Residents and Families/Representatives,

Please accept this letter as College Park Rehabilitation Center's weekly update to keep you informed about the status of COVID in our facility and what we are doing to keep our residents and staff safe during the ongoing coronavirus pandemic.

As of today, 35 residents and 26 staff members have tested positive for COVID-19. Additionally, 19 of these residents and 24 staff members have had their cases resolved. We currently have only one COVID-positive resident in the facility. Three of our COVID positive residents from last week are now in our observation unit. We will continue to work hard and take all necessary steps to meet and maintain our goal of becoming COVID-free.

As a reminder, we continue to closely monitor and follow the recommendations of our federal, state and local health officials. Only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for updates. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly 702-644-1888.

Sincerely,

Julie Liebo

Administrator
